Dear Ms. Soles

I have reviewed the application for your New Jersey Laboratory. Your New Jersey facility (NJ00337) is granted reciprocity for 100.2. Reciprocity was requested for Asbestos by both 100.1 and 100.2 however PT's information was not received for the 100.1 method and reciprocity cannot be granted at this time. Please submit the PT Results for both 100.1 and 100.2 in the future.

This is your certification for September 23, 2008 through June 30, 2009. I am sending this out late due to the error on our part.

For continuation of reciprocity after the expiration date please request renewal application before June 1, 2009.

Sincerely,

Christopher Ball, Ph.D.  
Acting Laboratory Certification Authority
