

CALA ACCREDITATION PROGRAM  
FINAL SCOPE OF TESTING

3942

LABORATORY NAME: EMSL Canada Inc.

MATRIX

Air (Inorganic)

APPENDIX NO. / NAME

001	Asbestos - Air	<u>METHOD</u> PCM FIBRE COUNTING	<u>METHOD REFERENCE</u> NIOSH 7400	<u>LAB METHOD I.D.</u> PCM NIOSH 7400 SOP
		<u>Parameters:</u> Asbestos		

NEW 006	Lead - Air	<u>METHOD</u> AAS - DIGESTION	<u>METHOD REFERENCE</u> NIOSH 7082	<u>LAB METHOD I.D.</u> LMBL-SOP-200
		<u>Parameters:</u> Lead*		

Air (Mycology)

APPENDIX NO. / NAME

003	Fungi - Air	<u>METHOD</u> MICROSCOPIC	<u>METHOD REFERENCE</u> ASTM D7391-09	<u>LAB METHOD I.D.</u> MICRO-SOP-201
		<u>Parameters:</u> Fungal Propagule - Genus		

Solids (Inorganic)

APPENDIX NO. / NAME

NEW 005	Lead - Solids [Paint, Soil, Wipe]	<u>METHOD</u> AAS - DIGESTION	<u>METHOD REFERENCE</u> EPA 7000B	<u>LAB METHOD I.D.</u> LMBL-SOP-200
		<u>Parameters:</u> Lead*		

Solids (Mycology)

APPENDIX NO. / NAME

004	Fungi - Solids	<u>METHOD</u> MICROSCOPIC	<u>METHOD REFERENCE</u> IN-HOUSE	<u>LAB METHOD I.D.</u> MICRO-SOP-200
		<u>Parameters:</u> Fungal Propagule - Genus		

† "OSDWA" indicates the appendix is used for the analysis of Ontario drinking water samples, which is subject to the rules and related regulations under the Ontario "**Safe Drinking Water Act**" (2002).

PT REQUIREMENTS: All tests appearing in the scope of testing must be supported by PT testing where available. Therefore, analytes with a status of Withdrawn, Suspended, or not yet proficient, will NOT appear on the Final Scope of Testing. Once proficiency has been achieved, the affected analyte(s) will appear on the Scope of Testing. Please refer to P02-03 *CALA Program Description - Proficiency Testing (PT) Requirements for Accreditation*.

The list of tests and measurement capabilities for which a laboratory is accredited can change at any time due to circumstances such as scope extensions, voluntary withdrawal of tests by the laboratory and suspension. Scopes are published by the CALA via the Internet at [http://www.cala.ca/cala\\_directories.html](http://www.cala.ca/cala_directories.html)

Mr. Jefferson Salvador  
EMSL Canada Inc.  
EMSL Analytical Inc.  
2333 18th Avenue NE  
Unit 48  
Calgary, AB T2E 8T6

Dear Mr. Salvador:

**Subject: Final Scope of Testing  
2018 CALA Re-assessment and/or Scope Extension**

Congratulations! A panel of the CALA Accreditation Council has approved maintenance of accreditation to ISO/IEC 17025 and/or any scope extensions. A copy of the **Final** Scope of Testing is attached. Please be reminded that inclusion of analytes on the **Final** Scope of Testing requires successful participation in Proficiency Testing, where applicable, as per P02-03 - *CALA Program Description - Proficiency Testing (PT) Requirements for Accreditation*. The scope will be posted on the CALA web site ([www.cala.ca](http://www.cala.ca)).

If you have any questions about the scope of testing, please contact CALA at [assessments@cala.ca](mailto:assessments@cala.ca).

**If this was a full reassessment:** an accreditation certificate will be sent to you within the next few weeks, and is valid for 2.5 years until the certificate's expiry date. Any previously issued Accreditation Certificates are considered obsolete, and if retained for either legal or knowledge preservation purposes must be suitably marked. Attached is the joint ISO-ILAC-IAF communiqué, which explains the link between ISO/IEC 17025 and ISO 9001.

As a CALA accredited lab, we encourage you to make use of one of the CALA Accreditation Symbols shown below right. Recognized around the world, these are known as marks of competence and some regulations and policies now specify accreditation by an ILAC body. For more information, please refer to P03 - CALA Publicity Policy ([http://www.cala.ca/P03-Publicity\\_Policy.pdf](http://www.cala.ca/P03-Publicity_Policy.pdf)).

If you have any questions regarding certificates or use of the symbols, please contact the CALA office.

Yours truly,

  
Colleen Cotter  
Accreditation Manager
