Client:	**Environmental Monitoring Group, LLC**	EMSL Order ID:	**611500600**
	200 Rt 130 N	Date Received:	**2/24/2015**
	Cinnminson, NJ 08077	Date Analyzed:	**2/26/2015**
Attn.	**John Doe**	Date Reported:	**2/27/2015**
Project:	**Street Flooding-2015-0226**	Date Amended:	

Real-Time PCR Analysis for Human *Bacteroides*

(Based on a published method SAM: 348 - 357, 2010), EMSL Test Code: M199, Revision No. 3, 12/12/2014

Lab Sample Number	Client Sample ID	Description	Water Received (mL)	Water Sampled (mL)	CEs /100 mL
600-1	A-001	Shopping Center Entry	250	250	188
600-2	A-002	Bus Stop	250	250	2685
600-3	A-003	Mall Entry	250	250	1382
600-4	A-004	Mall Hallway	250	250	None Detected

Note: The qPCR assay for human *Bacteroides* is based on HF183 marker which was evaluated by EPA scientists (SAM, 33, 2010). The qPCR detects human specific *Bacteroides* predominantly.

CEs: Cells Equivalent, measured by PCR using genomic DNA standards.
